Lieu : Luxembourg

Intitulé : Terminology Server – Dossier de Soins Partagé – New Generation (DSP NG)

Description : The tender aims to select a contractor to design, implement, configure, secure, deploy and maintain a central Terminology Server. The solution will provide an authoritative platform for managing and distributing medical terminologies, code systems, value sets and mappings, enabling consistent coding and semantic interoperability. It will support standards-based terminology services, including HL7 FHIR, facilitate interoperability with national and European health systems, and contribute to alignment with the European Health Data Space (EHDS).
