Intitulé : ESPON - Analysing Competitiveness through the lens of Cognitive Regional Distance (ACCORD)

Description : This project aims to analyse the factors that contribute to the reduction of cognitive distance between Europe's less competitive regions and its leading innovation and competitiveness hubs with a particular focus on the role of the public sector in this process. By examining how regions tap into the pan-European innovation system, the project will provide critical insights into the mechanisms that facilitate knowledge transfer, collaboration and competitiveness upgrading.
